This Summer, We Bring You.....

Summer
OF
INNOVATION
2021

A Journey Through the Holidays!

Join us during the course of the next 12 weeks to learn the latest technology, play with code, tinker around, and build something cool that could inspire. The event aims at enhancing the tech community at our institute and thus, whether you are a pro or a newbie learning the ropes, we would love to see you contribute in any way possible!

Details

When? : Officially starts on **May 12th, 2021**
*tune in regularly for updates

What's in it for you? : A huge learning experience - getting familiar with git, python, node and other popular things in the software field, a great tinkering experience for the curious mechanic and a dive into case study.

Where? : The entire event shall be held virtually. Updates regarding the event can be found over the event website, Instagram handle as well as over mail! Join the following group to have your queries addressed!

Registrations? : Open upto **20th of May**. Link given below

Event Domains

*details available over the main website
